

Opaque Holographic Paper Environment Friendly Water Soluble Holographic Package Paper

Our Product Introduction

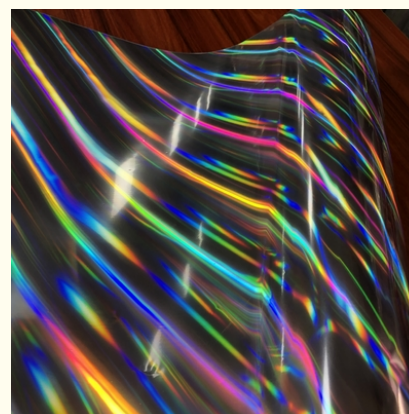

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Zhanxin
- Minimum Order Quantity: 10000 square meters
- Price: \$0.37/square meters 10000-19999 square meters
- Packaging Details: Carton, Pallet.
- Supply Ability: 100000 Square Meter/Square Meters per Month

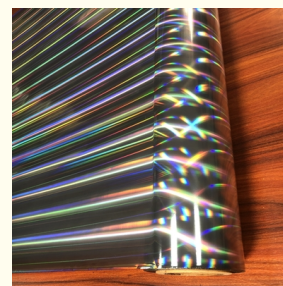

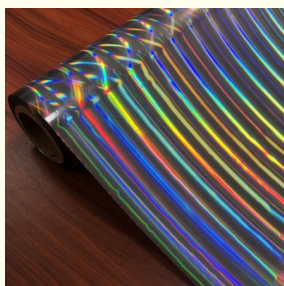

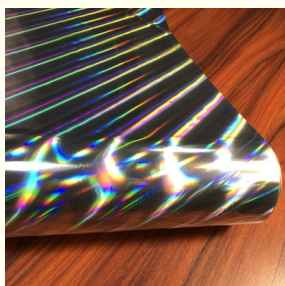

Product Specification

- Name: Environment Friendly Holographic Package Paper
- Industrial Use: Gift & Craft
- Use: Other Gift & Craft
- Material: Recyclable, Write Paper
- Type: Holographic Transferred
- Usage: Gifts, Wine, Cosmetics, Label, Cold Lamination
- Feature: Water Soluble
- Hardness: Soft
- Processing Type: Injection Molding
- Transparency: Opaque
- MOQ: 10000 Square Meter
- Thickness: 0.305mm, 0.330mm, 0.406mm
- Length: 3000 M
- Color: Holographic

Product Description

Environment-Friendly Holographic Package Paper

The Environment -Friendly Holographic Package Paper is a kind of Transferred Holographic Paper. which its without plastic film and its recyclable .

This transferred holographic paper is manufactured by transferring hologram metalized layer onto basepaper and then release the PET film from base paper. So the hologram image with Aluminum coating layer is combined together with paper after tranfered process.

Material: Aluminum Hologram layer + coated paper, white/grey duplex board

Material Color: silver, golden, red, gree, blue, purple, etc

Weight: 100 gsm to 450 gsm

Hologram Pattern: Rainbow, pillar light rainbow, dots,start, and other various holographic patterns. We also make customized design holographic paper.

Packaging: roll or sheet according to clients' requirement.

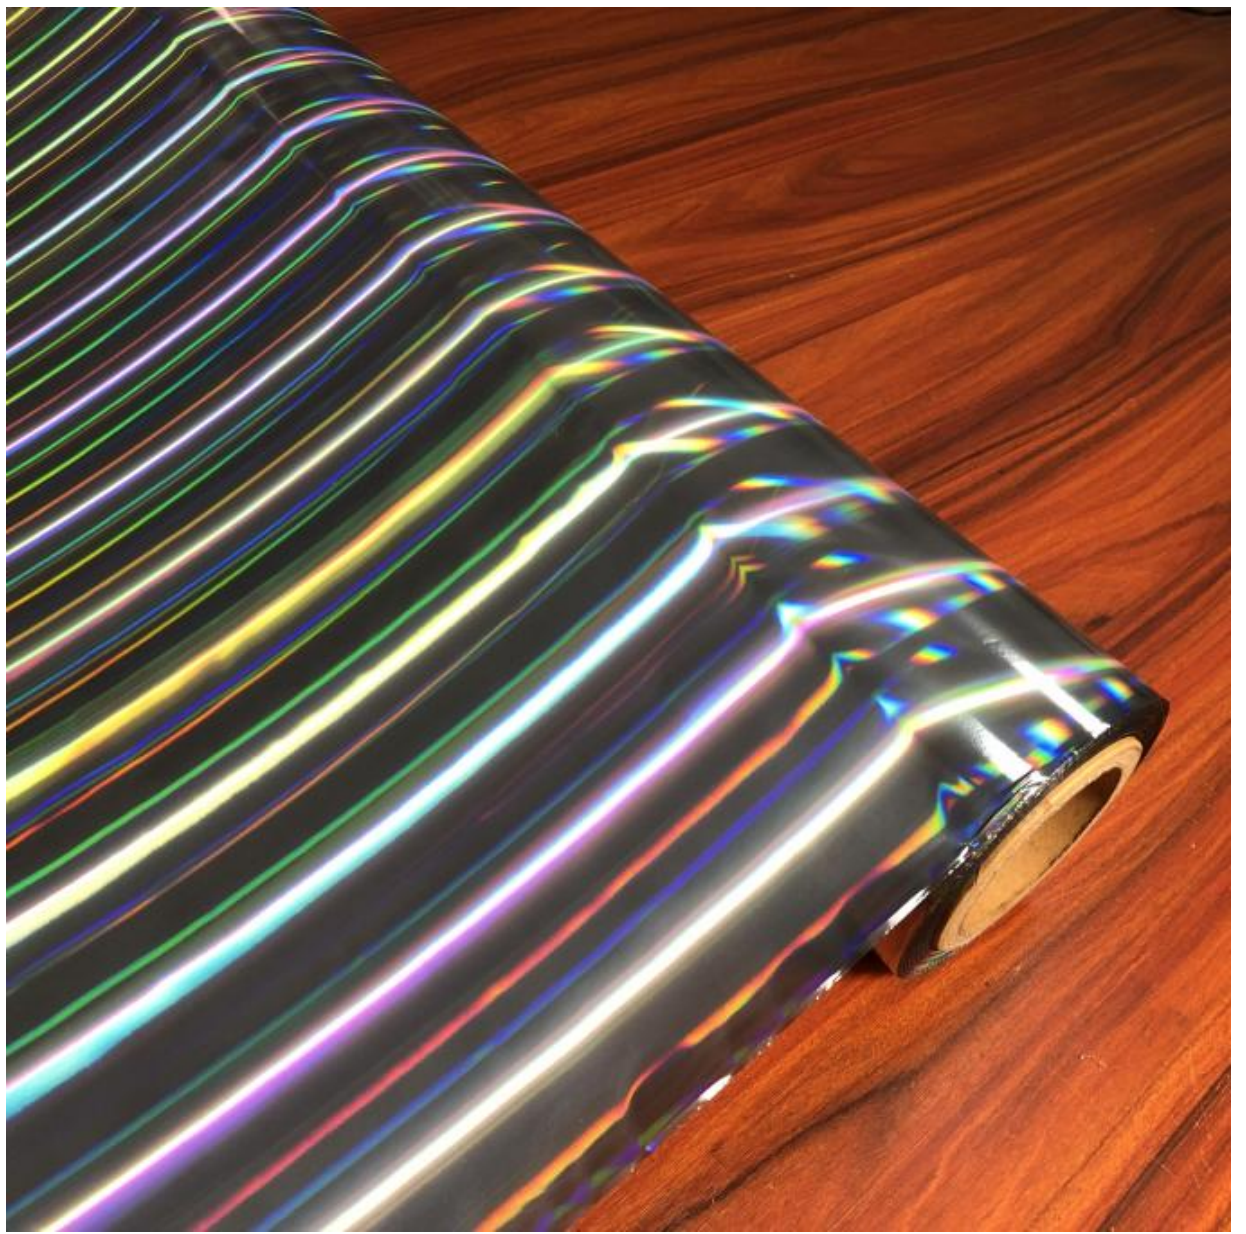

Size of Hologram Paper : width: 510 mm, 787 mm or 889 mm or customized or according to clients' requirement.

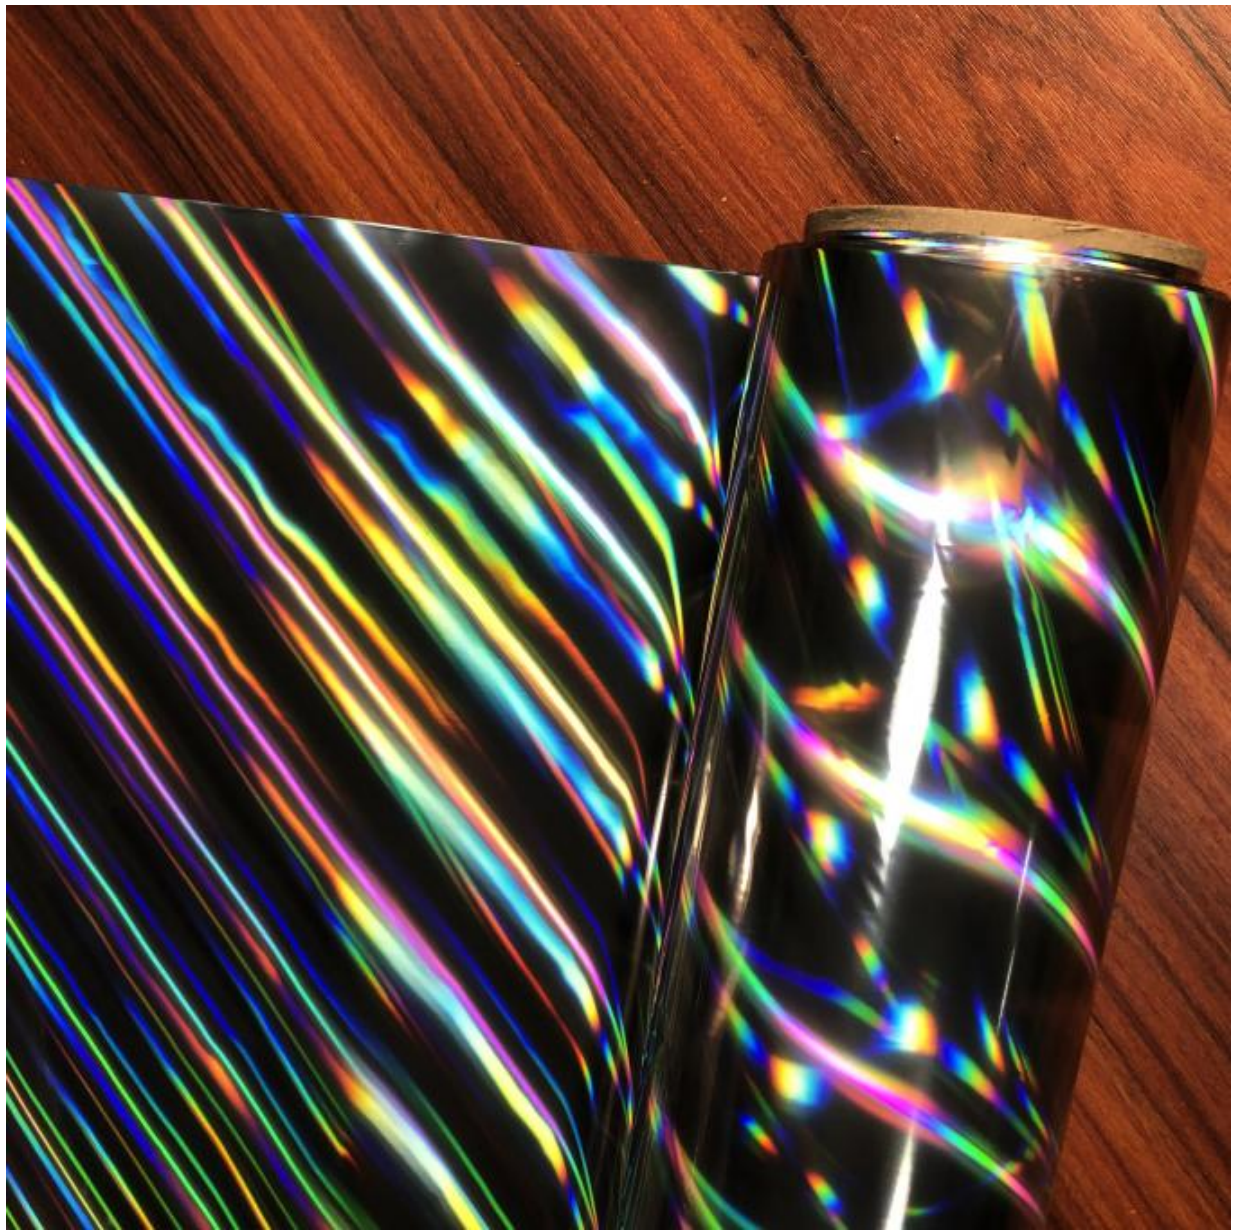

Application: Cosmetics, food, beverage; wine, liquor, wrapping papers, cake, chocolate, tea, greeting cards, holographic paper bag, etc

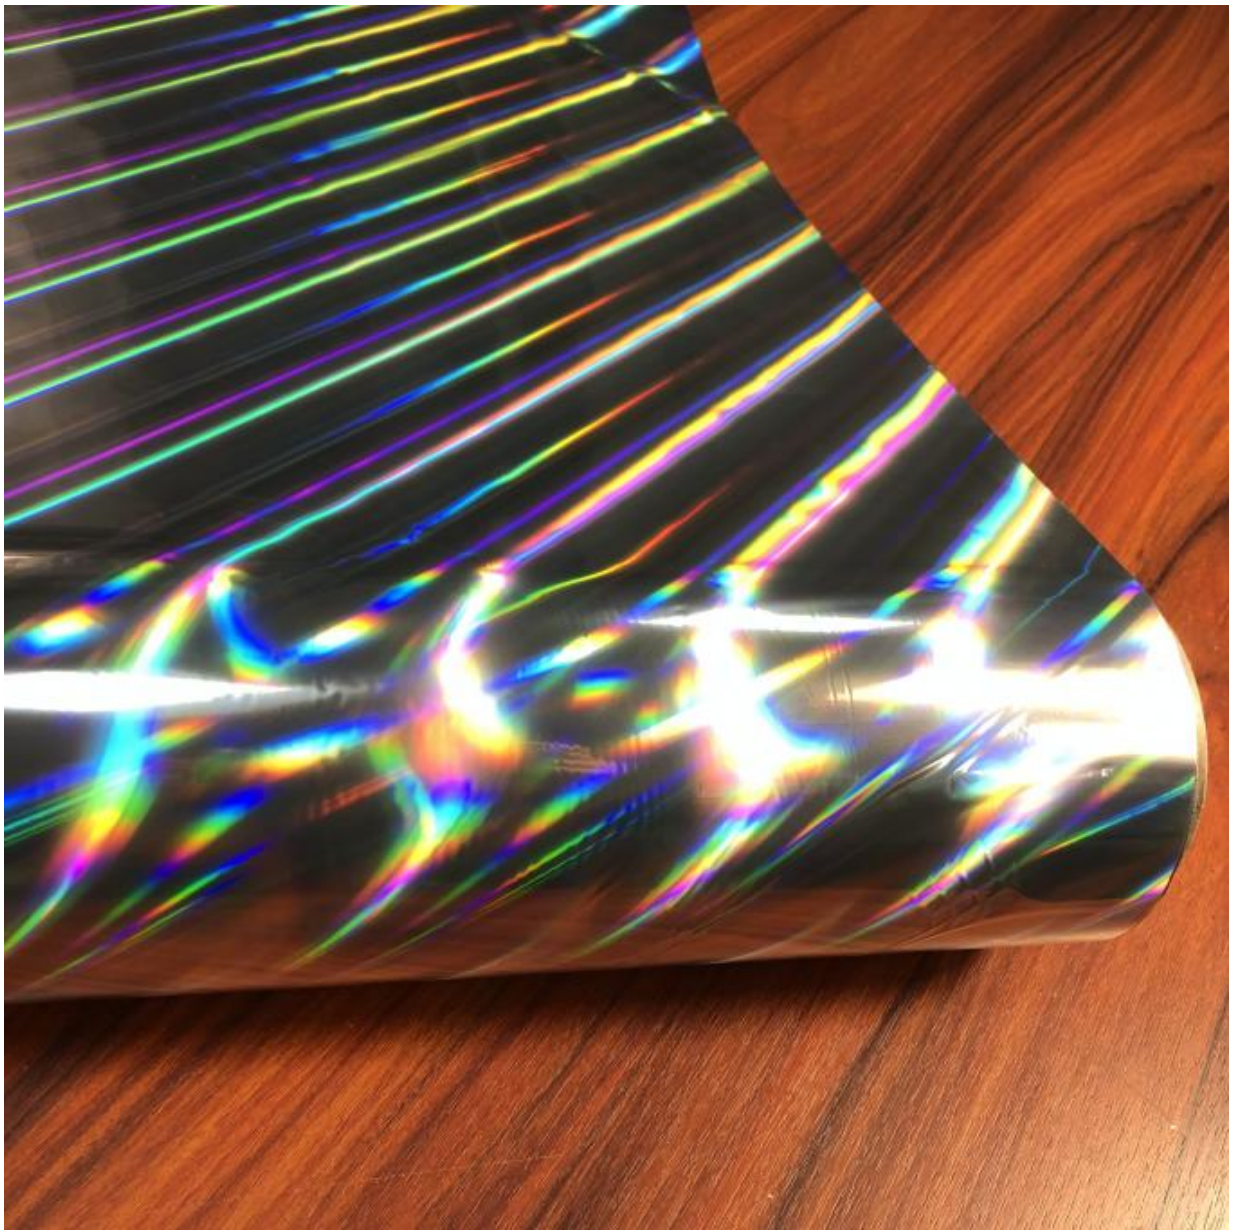

Features:

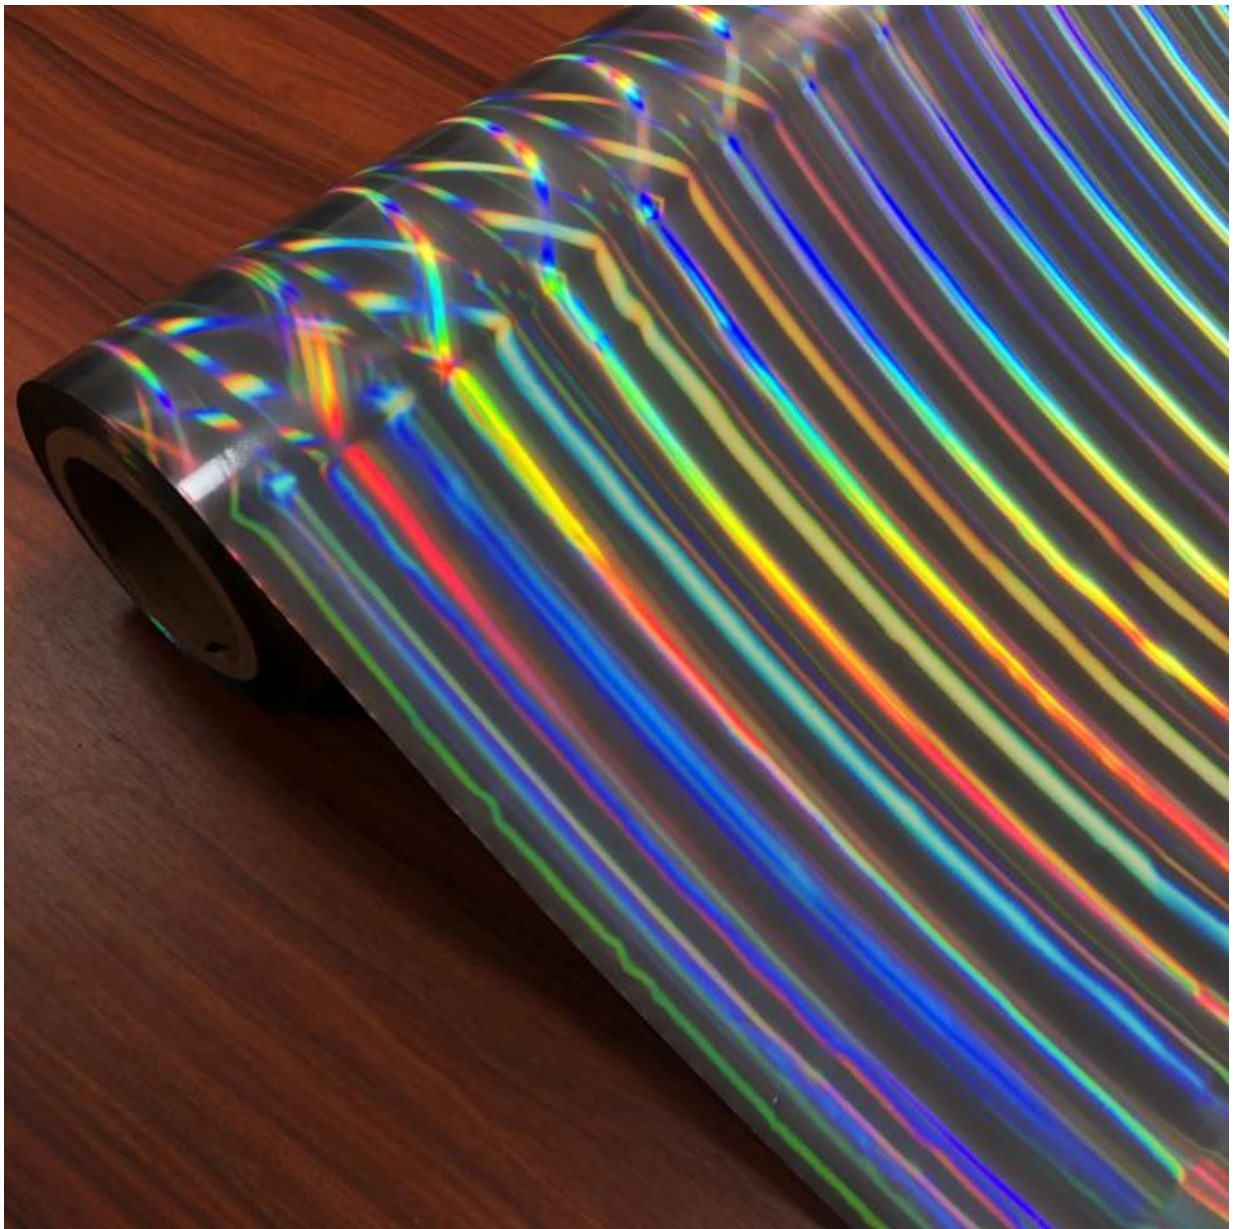

- Environmental-friendly and easy decomposition, the material used are tasteless and innocuous.
- Strong metallic hologram looking and excellent aluminum coating adhesion.
- Glossy and good smoothness of surfaced.
- Excellent ink adhesion ability. It's easy to do over printing onto it.
- Suitable for offset printing, gravure printing and flexible printing
